Subject Project "IMA"

Motivation Letter

At LOOP, we share a passion for social impact and technological solutions. We are eager to use our skills, knowledge and experience to support refugees and volunteers to defeat integration challenges.

3 REASONS FOR CHOOSING LOOP?

Developing language support: to assist refugees in learning the Dutch language, we have knowledge in language tools through digital methods.

Guidance for administrative purposes: step-by-step guidance can be provided with instructions on administrative procedures.

Volunteer system: creating a system that allows structured engagement and support for volunteers to assist refugees.

OUR VISION FOR "MIA"

This project provides an opportunity to engage with refugees while also exploring the challenges individuals with language barriers and cultural differences face when using technology. Additionally, it aims to make technology more accessible for them.

COLLABORATION AND COMMITMENT

In LOOP, we are dedicated to the success of this project. We succeed with the strong sense of collaboration shared passion for creativity, innovation and development. With us, you can trust that we will meet your expectations and more.

With kind regards,
